

Mithat Kara

Frontend Developer

As a highly creative and result-driven Frontend Developer, I possess over 1 years of experience in designing and developing impactful user experiences and user interfaces across various industries. I am an expert in modern web technologies, including HTML5, CSS3(SASS, LESS), JavaScript (ES6+),Typescript and popular libraries and frameworks such as React, Next JS. I have a successful track record of delivering responsive and accessible web designs that cater to user needs and expectations while supporting business objectives.Experienced with Agile and Scrum methodologies, I value teamwork and continuously strive to improve myself and my projects. I contribute to the successful completion of projects by sharing my thoughts and ideas through communication and collaboration with my colleagues.You can review detailed my projects on myportfolio website and github.
